As Riley (1978) notes, aging is a lifelong process and entails maturation and change on physical, psychological, and social levels. Age, much like race, class, and gender, is a hierarchy in which some categories are more highly valued than others. The Process of Aging | Introduction to Sociology Aging is associated with changes in dynamic biological, physiological, environmental, psychological, behavioral, and social processes. Some age-related changes are benign, such as

graying hair. Others result in declines in function of the senses and activities of daily life and increased susceptibility to and frequency of disease, frailty, or disability. Understanding the Dynamics of the Aging Process | National ... Aging is one of the social problems that are currently affecting U.S citizens. This problem has affected the social institutions and the lives of people. The social challenges of the old people are further worsened by the economic constrains, and labeling. Aging as a Social Problem - 718 Words | Essay Example Stay mentally active. Socialize regularly. Get organized. Focus. Eat a healthy diet. Daily physical activity. Manage chronic illnesses. The Psychological and Social Impacts of Aging While aging itself is a biological process, what it means to be “young” or “old” is socially constructed. This means that there is no inherent cultural meaning to the biological process of aging. Rather, cultures imbue youth and age with meanings. Aging is perceived differently around the world, demonstrating its social construction. A Global Perspective on Aging | Boundless Sociology Be social. Social interaction helps ward off depression and stress, which can contribute to memory loss. You might volunteer at a local school or nonprofit, spend time with family and friends, or attend social events. Aging: What to expect - Mayo Clinic The fourth dimension of aging is social. Social aging refers to changes in a person’s roles and relationships, both within their networks of relatives and friends and in formal organizations such as the workplace and houses of worship. 12.1 Gerontology and the Concept of Aging – Sociology Social and Psychological Aspects of Aging Today, in the United States, over 35 million persons are 65 years

of age or older, accounting for about 13 percent of the population. In the year 2030, their numbers will more than double resulting in one in every five Americans being over 65. Italy is predicted to reach that mark in 2002. Social and Psychological Aspects of Aging Aging is one of the important social issues that society should be concerned about. Aging refers to the gradual changes that happen with time in the life of an individual (Kaplan, 2006, p. 196). A multifaceted process involves changes in terms of psychological, physical, and social changes. Aging as a Social Process - 978 Words | Report Example Looking beyond biology to explore the complex social process of aging, this fully updated sixth edition draws on a wide variety of theoretical and methodological perspectives to reveal the individual and societal dimensions of aging in Canada.
