systems are the most common form of engineering controls. 1.2 DESIGN PROCEDURE. Refer to the ACGIH (American Conference of Governmental Industrial Hygienists) IV Manual, Industrial Ventilation; A Manual of Recommended Practice, for system design calculations. Design all industrial ventilation systems in Introduction to Design of Industrial Ventilation Systems There are two types of mechanical ventilation systems used in industrial settings: Dilution (or general) ventilation reduces the concentration of the contaminant by mixing the contaminated air with clean, uncontaminated air. Local exhaust ventilation captures contaminates at or very near the source and exhausts them outside. Industrial ventilation - EHS
