edge. Staff — December 28, 2012 7 Essential Traits for Successful Six Sigma Leaders It is because Six Sigma is much more than individual projects. Leadership should recognize Six Sigma as a management strategy, rather than using it as a tool. When a company adopts Six Sigma as a management strategy, the entire organization and all its departments will be channelized towards identifying and improving its processes. Role of Leadership in Six Sigma Lean Six Sigma is both a top-down and bottom-up methodology. The top-down element is associated with problem selection. The Lean Six Sigma project teams are focused on real-world problems that are impacting customers and processes right now. What is Lean Six
