Public reporting burden for the collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. AADL and Model-based Engineering - DTIC Finally a resource that puts AADL information into a learnable format. The book starts off with a nice introduction to model-based software systems engineering and does a good job of putting a AADL into context by comparing it to SysML, VHDL, and UML. The book is broken down into two main parts and then has some
